INDEPENDENT AUDITOR'S REPORT

Board of Directors University of Maine Foundation

Opinion

We have audited the accompanying financial statements of University of Maine Foundation (the Foundation), which comprise the statement of financial position as of December 31, 2022, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Foundation as of December 31, 2022, and the changes in its net assets and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles (U.S. GAAP).

Basis for Opinion

We conducted our audit in accordance with U.S. generally accepted auditing standards (U.S. GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Foundation and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS, we:

Berry Dunn McNeil & Parker, LLC

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the Foundation's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

The accompanying notes are an integral part of these financial statements.

Notes to Financial Statements

December 31, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

University of Maine Foundation (the Foundation) was founded in 1934 and assists in the development activities of the University of Maine (the University) by encouraging gifts and bequests for scholarships, instruction, research, endowment, and other purposes that will benefit the University and other charitable organizations.

The Foundation's operations are supported by contributions without donor restrictions, a fee charged to the endowment pool, and advancement services contract revenue (Note 10). During the year ended December 31, 2022, \$3,024,127 was charged to the endowment pool for operations.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Basis of Accounting

The Foundation prepares basic of financial statements on the accrual basis of accounting; consequently, revenues and gains, and other support are recognized when earned, and expenses and losses are recognized when incurred.

Cash and Cash Equivalents

For purposes of the statement of cash flows, cash equivalents include time deposits, certificate of deposits (CDs), and all highly liquid debt instruments with original maturities of three months or less, except for investments with donor restrictions or deposits with trustees which are classified as short-term investments and long-term investments.

Artwork

Various artwork valued at \$212,517 and a Hummel collection valued at \$133,510 donated to the Foundation have been capitalized as of December 31, 2022. Capitalized items are valued based on appraised or market value as of the date of gift, and included with other assets on the statement of financial position. Gains and losses on the sale of artwork are reported in other revenue and gains (losses) on the statement of activities and are restricted according to donor direction.

Notes to Financial Statements

December 31, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Contributions of Nonfinancial Assets

During 2023, the Foundation adopted Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) No. 2020-07, *Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*. The amendments in this ASU require not-for-profit organizations to present contributions of nonfinancial assets separately from other contributions. Additionally, the ASU adds further disclosure requirements. There was no impact to the change in net assets as a result of this adoption.

Revenue and Revenue Recognition

Contributions received are recorded as without donor restriction or with donor restriction, depending on the existence or nature of any donor restrictions. Contributions, including unconditional promises to give, are recognized as revenue in the period received. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. Unconditional promises to give to be received in future years are discounted at an appropriate discount rate commensurate with the risks involved and recorded as promises to give on the statement of financial position. Amortization of discounts is recorded as additional contribution revenue in accordance with donor-imposed restrictions, if any, on the contributions. Contributions with donor restriction whose restrictions are met in the period they are received are reported as contributions without donor restrictions.

Investment Real Estate

Investment real estate consists of donated assets recorded at the fair value as of the date of gift. Donated real estate may have donor restrictions, therefore, may be recorded as with or without donor restrictions. Realized gains and losses are recorded as other revenue and gains (losses) in the statement of activities.

Custodial Funds

The Foundation holds assets for other entities for which the entity controls the spending. The custodial funds are reported by the Foundation as an asset and corresponding liability. Income to and disbursements from these funds are reported as increases or decreases to the corresponding asset and liability account of the Foundation.

Notes to Financial Statements

December 31, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

<u>Investments</u>

The Foundation has applied the accounting guidance in FASB Accounting Standards Codification (ASC) Topic 820, Fair Value Measurement, which permits the use of net asset value (NAV) or its equivalent reported by each underlying alternative investment fund as a practical expedient to estimate the fair value of certain investments. Alternative investments, generally referred to as hedge funds, are redeemable or may be liquidated at NAV under the original terms of the subscription agreements or operations of the underlying assets. However, it is possible that these redemption rights may be restricted by the fund manager in the future in accordance with the underlying fund agreements, as applicable. Private investments consisting of investments in private equity or venture capital investment firms, while valued at NAV, are illiquid and not redeemable.

Changes in market conditions, the economic environment, or the funds' liquidity provisions may significantly impact the NAV of the funds, and consequently, the fair value of the Foundation's interest in such funds. Although certain investments may be sold in a secondary market, the secondary market is not public and not necessarily observable. It is, therefore, possible that if the Foundation were to sell its interest in the secondary market, the sale could occur at an amount materially different from the reported value.

The Foundation maintains a general pool of investments for its endowment. Investment income, including realized and unrealized gains and losses, investment management fees, and fee charged for Foundation operations are allocated monthly to the individual endowment funds.

Investment income is reflected in the statement of activities as with or without donor restrictions based upon the existence and nature of any donor-imposed restrictions.

The Foundation also maintains short-term investments in a mix of money market, certificates of deposit, bonds, and equity. Short-term investments consist of funds with donor restrictions and operating reserve funds.

Assets Held and Liabilities Under Split-Interest Agreements

The Foundation acts as trustee of various trusts and other life income arrangements initiated by donors under which the Foundation will receive benefits that are shared with the donor or third party beneficiaries. The arrangements include pooled life income plans, charitable remainder trusts, charitable lead trusts, and charitable gift annuities. The trusts are governed by the respective trust agreements, which generally provide for either an income stream or a future distribution of cash or other assets to the Foundation, in whole or in part, for a specified period or upon the occurrence of a specific event, respectively. If a trust is revocable, or if the maker of the trust reserves the right to replace the Foundation as the beneficiary of the trust, the Foundation record the assets placed in trust at fair value, with an equal and offsetting liability until such time that the Foundation receive distributions from the trust in accordance with its terms. If the trust is irrevocable, the trust assets are recorded at fair value, and a related liability for future payments to be made to the specified beneficiaries is recorded at fair value using present value techniques and

Notes to Financial Statements

December 31, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

risk-adjusted discount rates designed to reflect the assumptions market participants would use in pricing the liability. The excess of contributed assets over the trust liability is recorded as a contribution with donor restrictions until such amount is received via trust distribution or is expended in satisfaction of the donor-restricted purpose stipulated by the trust agreement, or both, if any. At that time, net assets with donor imposed time or purpose restrictions are released to net assets without restrictions, and net assets with donor restrictions that are perpetual in nature are transferred to the endowment.

In subsequent years, the liability for future trust payments to the donor is reduced by payments made to the donor and is adjusted to reflect amortization of the discount and changes in actuarial assumptions at the end of the year. Split-interest agreements are stated at fair value at the time of donation. The carrying values of the assets are based on quoted market prices. Based on donor life expectancies future annuity obligations are discounted to the present value based upon a current rate of return 6% and included in liabilities under split-interest agreements on the statement of financial position.

Under charitable gift annuity contracts, the Foundation receives immediate and unrestricted title to contributed assets and agree to make fixed recurring payments over the stipulated period. Contributed assets are recorded at fair value on the date of receipt. The related liability for future payments to be made to the specified beneficiaries is recorded at fair value using present value techniques and risk-adjusted discount rates designed to reflect the assumptions market participants would use in pricing the liability. The excess of contributed assets over the annuity liability is recorded as a contribution without donor restrictions. In subsequent years, the liability for future annuity payments is reduced by payments made to the specified beneficiaries and is adjusted to reflect amortization of the discount and changes in actuarial assumptions at the end of the year.

Financial Instruments

The following methods and assumptions were used by the Foundation in estimating its fair value disclosures for financial instruments:

Cash, cash equivalents, and promises to give – The carrying values reported in the statement of financial position approximate fair values because of the short maturity of those instruments.

Short-term and long-term investments – The fair values of investments within an active market are based on quoted market prices for those of similar investments stated at fair value. Investments without an active market are based on NAV as provided by fund managers.

Notes to Financial Statements

December 31, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Life income plans – The fair values are based on quoted market prices. Investments without an active market are based on NAV as provided by fund managers.

Irrevocable trusts – The trustees provide the values based upon their records. Generally, the fair values are of investments based on quoted market prices.

Concentration of Credit Risk

The Foundation has significant investments in equity and debt securities that are owned and administered by the Foundation and is subject to many types of risk which may impact the Foundation's investments. Investment advisors who are supervised by a Board of Directors of the Foundation manage investments and seek to minimize risk by diversification of assets. Though the market value of investments is subject to fluctuations on a year-to-year basis, the Foundation's Board of Directors (the Board) believe that the investment policy is prudent for the long-term objective of the organization.

Property and Equipment

Property and equipment with a useful life of more than one year and a cost of at least \$2,000 is capitalized and recorded at historical cost. Depreciation is provided on a straight-line method over the estimated useful lives of the assets. Vehicles and equipment are assumed to have useful lives of three, five, and ten years.

Leases

In June 2016, the FASB issued ASU No. 2016-02, *Leases* (Topic 842), to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities in the statement of financial position and disclosing key information about leasing arrangements. The adoption of this pronouncement and related guidance during the year ended December 31, 2022 did not have a material impact on the financial statements of the Foundation.

Income Taxes

The Foundation is exempt from income taxes under the provision of Section 501(c)(3) of the Internal Revenue code. In addition, the Foundation qualifies for the charitable contribution deduction under Section 170(b)(1)(A)(vi) and has been classified as an organization other than a private foundation under Section 509(a)(2).

The Foundation is subject to income tax examinations by the U.S. federal or state tax authorities for the years ended after June 30, 2020.

Notes to Financial Statements

December 31, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONCLUDED)

Net Assets

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor or grantor imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Net Assets Without Donor Restrictions – Net assets available for use in general operations and not subject to donor (or certain grantor) restrictions. The governing board has designated, from net assets without donor restrictions, net assets for an operating reserve, and board-designated endowment.

Net Assets With Donor Restrictions – Net assets subject to donor (or certain grantor) imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity

Functional Allocation of Expenses

The cost of providing the Foundation's various programs and supporting services have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated to both programs and support services. These expenses are allocated on the basis of estimates of time and effort.

2. <u>LIQUIDITY AND AVAILABILITY OF FINANCIAL ASSETS</u>

The Foundation regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to maximize the investment of its available funds. The Foundation has various sources of liquidity at its disposal, including cash and cash equivalents and marketable securities.

For purposes of analyzing resources available to meet general expenditures over a 12-month period, the Foundation considers all expenditures related to its ongoing activities of fundraising and managing endowment in support of the University. The Foundation holds restricted assets in the form of promises to give and long-term investments for endowment that are not available to meet current operating needs.

Notes to Financial Statements

December 31, 2022

2. <u>LIQUIDITY AND AVAILABILITY OF FINANCIAL ASSETS (CONCLUDED)</u>

The Foundation seeks to operate with a balanced budget and anticipates collecting sufficient revenue to cover general expenditures not covered by donor-restricted resources. Total financial assets available for expenditure within one year as of December 31, 2022 are as follows:

Cash and cash equivalents	\$	4,830,904
Short-term investments		3,107,808
Long-term investments, endowment		
Board designated administrative fee for 2023 budget		3,380,539
Unrestricted funds	_	2,121,054
Total financial assets available for expenditure within one year	\$ <u>_</u>	<u>13,440,305</u>

3. PROMISES TO GIVE

Unconditional promises to give are recorded in the financial statements in the year the promise is received. Promises to give exceeding one year are recorded at the present value of the future cash flows using a discount rate 6% based on a current rate of return. Promises to give are adjusted to an estimated fair value each year, through updated present value risk adjusted discount rates. Discount amortization is included in contributions revenue.

Promises to give as of December 31, 2022 are expected to be realized in the following periods, on a calendar year basis:

Within one year Between one to five years Over five years	\$ 1,959,869 1,972,865 21,100
Total	3,953,834
Less discounts to present value Less allowance for uncollectible pledges	(188,200) (40,000)
Net unconditional promises to give	\$ <u>3,725,634</u>

The Foundation may receive conditional promises to give from bequests and revocable trusts. At this time, the Foundation may not have been notified as such or provided with the financial information and, therefore, amounts expected to be received from these promises cannot be accurately estimated.

Notes to Financial Statements

December 31, 2022

4. CASH SURRENDER VALUE OF LIFE INSURANCE

The Foundation owns life insurance policies on the lives of certain donors. The cash surrender value (value of the policies if they were cancelled as of the statement of financial position date) as of December 31, 2022 was \$243,714 and the total death benefit due to the Foundation upon the deaths of those insured for was \$1,338,840.

5. LONG-TERM INVESTMENTS, ENDOWMENT

The Foundation manages an investment pool of approximately 1,950 endowed and quasiendowed funds on a unitized basis monthly. Most donor restricted funds support the University or organizations supporting the University or its students. However, \$6,108,975 of the funds with donor restrictions are designated for other charitable purposes.

The Foundation has established a specific set of investment objectives and guidelines for investment managers that attempt to provide a predictable stream of income while seeking to maintain the purchasing power of the endowment assets over the long-term. The investment policy establishes an achievable return objective and seeks to manage risk through diversification of asset classes. The current long-term return objective is to return 7.25%. Actual returns in any given year may vary from this amount.

Long-term investments, endowment as of December 31, 2022 were categorized as follows:

	Without Donor <u>Restrictions</u>	With Donor Restrictions	<u>Total</u>
Board-designated Unrestricted funds Donor-restricted	\$ 2,115,319	\$ -	\$ 2,115,319
	2,121,054	-	2,121,054
Original amount required to be maintained in perpetuity Accumulated investment gains Custodial funds	-	195,583,720	195,583,720
	-	80,552,129	80,552,129
	<u>3,569,399</u>		3,569,399
Total funds	\$ <u>7,805,772</u>	\$ <u>276,135,849</u>	\$ <u>283,941,621</u>

Notes to Financial Statements

December 31, 2022

5. LONG-TERM INVESTMENTS, ENDOWMENT (CONCLUDED)

Changes in long-term investments, endowment net assets for the year ended December 31, 2022 were as follows:

	Without Donor <u>Restrictions</u>	With Donor Restrictions	<u>Total</u>
Balance, beginning of year Investment loss, net Contributions/additions Distributions pursuant to spending policy Foundation administrative fee Other distributions	\$ 9,429,528 (1,898,466) 607,478 - (82,148) (250,620)	\$ 319,612,690 (47,409,674) 14,409,259 (7,163,103) (2,894,689) (418,634)	\$ 329,042,218 (49,308,140) 15,016,737 (7,163,103) (2,976,837) (669,254)
Balance, end of year	\$ <u>7,805,772</u>	\$ <u>276,135,849</u>	\$ <u>283,941,621</u>

Endowment Spending Policy

The Foundation utilizes a spending policy for its pooled endowment in order to provide for the current and long-term needs of endowment recipients. The spending policy determines the endowment income to be distributed. For year ended December 31, 2022, the Foundation's Board approved a spending policy with a target spending rate of 4.5% consisting of a 3.25% distribution to the University and 1.25% administrative fee. Historically, distributions were calculated as of September 30 of the previous year based on trailing 12-quarter average market value of the endowment pool. For distributions after July 1, 2023, the date used for this calculation will be June 30 of the previous year.

Endowment spending is contingent upon a fund's market value exceeding its historic dollar value (principal). In accordance with the Uniform Prudent Management of Institutional Funds Act (UPMIFA), a prudent expenditure may be allowed unless the donor has explicitly prohibited expenditure of principal.

Underwater Endowment Funds

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires Foundation to retain as a fund of perpetual duration. There were deficiencies of \$630,594 at December 31, 2022. This was the result of 125 funds with historical value of \$18,506,421, with a decreased market value of \$17,875,827. The Foundation's policy does not allow for spending from underwater funds.

Notes to Financial Statements

December 31, 2022

6. LONG-TERM INVESTMENTS, LIFE INCOME PLANS

The Foundation manages two pooled life income funds and a charitable gift annuities program. Life income plans provide an income stream to the donor or the donor's designee (income beneficiary) with the Foundation receiving the assets of the plan upon the death of the income beneficiary.

Life income plans as of December 31, 2022 were categorized as follows:

Pooled life income fund #1 (growth)	\$ 7	718,917
Pooled life income fund #2 (income)	•	184,330
Charitable gift annuities	4,2	266,640
•		
Total long-term investments, life income plans	\$ <u>5,</u> ^	169,887

The following summarizes the life income plan activity for the year ended December 31, 2022:

	<u>R</u> (With Donor Restrictions		
Balance, January 1, 2022	\$	-	\$ 6,453,978	
Investment return (loss), net Contributions/additions Foundation administrative fees Distributions	_	346,591 - (47,057) (299,534)	(1,304,965) 154,783 - (133,909)	
Balance, December 31, 2022	\$ <u>_</u>		\$ <u>5,169,887</u>	

Notes to Financial Statements

December 31, 2022

7. FAIR VALUE MEASUREMENT

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. A fair value hierarchy for inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Foundation. Unobservable inputs reflect assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 – Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access. Valuation adjustments and block discounts are not applied to Level 1 securities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

Level 2 – Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

In some cases, the inputs used to measure the fair value of an asset or a liability might be categorized within different levels of the fair value hierarchy. In those cases, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. Assessing the significance of a particular input to entire measurement requires judgment, taking into account factors specific to the asset or liability. The categorization of an asset within the hierarchy is based upon the pricing transparency of the asset and does not necessarily correspond to our assessment of the quality, risk, or liquidity profile of the asset or liability.

A significant portion of our investment assets are classified within Level 1 because they comprise open-end mutual funds with readily determinable fair values based on daily redemption values. The Foundation may invest in some CDs traded in the financial markets. The fair values of beneficial interests in charitable gift annuities and perpetual trusts are determined by the Foundation using present value techniques and risk-adjusted discount rates designed to reflect the assumptions market participants would use in pricing the underlying assets and are based on the fair values of trust investments as reported by the trustees. These are considered to be Level 3 measurements.

Notes to Financial Statements

December 31, 2022

7. FAIR VALUE MEASUREMENTS (CONTINUED)

We use NAV per share, or its equivalent, such as member units or an ownership interest in partners' capital, as a practical expedient to estimate the fair values of certain hedge funds, private equity funds, funds of funds, and limited partnerships, which do not have readily determinable fair values. Investments that are measured at fair value using NAV per share as a practical expedient are not classified in the fair value hierarchy. The investments measured at NAV may include venture capital, global equities, blend, buyout and other U.S. and non U.S. private equity portfolios, private equity limited partnership interests, and minority positions in direct private equity investments. The funds are illiquid unless sold on the secondary market. The funds measured at NAV typically have an investment life of 10-15 years receiving capital over the first half of the life of the fund and tend to distribute capital during the final years of a fund's life. Early in the life of a private equity program, there will be net contributions. As the collective private equity investments mature, distributions should offset contributions to new private equity funds.

Information related to the Foundation's short-term investments and split-interest agreements as of December 31, 2022 measured at fair value on a recurring basis is as follows:

	Fair Value Measurements at Reporting Date Using								
		Level 1		Level 2		Level 3		<u>Total</u>	<u>Liquidity</u>

The following summarizes the activity of long-term investments measured at NAV per share, or its equivalent, for the year ended December 31, 2022:

Balance, January 1, 2022	\$ 254,397,622
Purchases/contributions of investments	9,349,424
Investment loss	(33,971,976)
Distributions/redemptions	(30,892,953)
Balance, December 31, 2022	\$ <u>198,882,117</u>

The Foundation committed an aggregate of \$61,600,000 with \$40,151,182 of committed capital to private investment funds. As of December 31, 2022, the remaining unfunded commitments to those funds were \$21,448,182. To the extent the Foundation has unfunded capital commitments to funds, the Foundation will be required to make additional capital contributions on an "as needed" basis.

Notes to Financial Statements

December 31, 2022

8. IRREVOCABLE TRUSTS

The Foundation has a beneficiary interest in various charitable trusts. Irrevocable trusts as of December 31, 2022 consist of the following:

Beneficiary interest in: Charitable remainder trusts Charitable lead trusts Perpetual trusts	\$ 3,302,837 1,982,259 1,205,526
Total beneficiary interest in irrevocable trusts	\$ 6,490,622

Unrealized losses of \$424,828 are reported in other revenue, and gains (losses) in the statement of activities for the year ended December 31, 2022. Terminated trusts and trust payments of \$962,719 were received during the year ended December 31, 2022.

9. NET ASSETS

Net assets without donor restrictions are as follows at December 31, 2022:

Undesignated Board designated Buildings, equipment, and other assets	\$ 5,424,020 7,734,298 3,815,154
Total net assets without donor restrictions	\$ <u>16,973,472</u>
Net assets with donor restrictions are restricted as follows:	
Subject to expenditure for specific purpose	\$ <u>5,016,525</u>
Subject to the passage of time	12,303,921
Endowment Scholarship support Non-scholarship support Promises to give	179,637,592 96,498,257 537,710
Not subject to expenditure Beneficial interest in perpetual trusts Donated real estate	276,673,559 1,205,526 4,699,715
	<u>5,905,241</u>
Total net assets with donor restrictions	\$ <u>299,899,246</u>

Notes to Financial Statements

December 31, 2022

10. ADVANCEMENT SERVICES AGREEMENT

The Foundation has an agreement with the University of Maine System (UMS) to provide all fundraising activities to the University. Per the agreement, UMS agreed to pay an annual fee of \$2,927,924 (due by July 31, 2023), plus an amount equal to 1% market value of endowments managed by UMS for the University of Maine, which amounted to \$815,694 for its fiscal year ended June 30, 2022 (due by September 30, 2023). The annual payment is typically received in July of each year, at which time the Foundation recognizes an amount in deferred revenue and amortizes it over 12 months into the statement of activities. The balance in deferred revenue in the statement of financial position at December 31, 2022 is comprised entirely of this transaction. The agreement continues year to year for three-year terms unless canceled by either party with written notice at which point the agreement would enter a final three-year term.

11. ACCRUED EXPENSES

Accrued expenses of the Foundation at December 31, 2022 consist of the following:

Post-retirement benefits (total estimated future benefits of \$565,914		
discounted to present value at 6%)	\$	451,458
Deferred compensation liability		151,185
Payroll and related taxes		556,706
Other	_	10,782
Total accrued expenses	\$	1,170,131

The Foundation has a Supplemental Executive Retirement Plan (SERP) for the purpose of providing supplemental retirement benefits to a select group of management or highly compensated employees. The Foundation intends to contribute to the 457(f) Plan the maximum amount allowed by the Internal Revenue Code for the applicable calendar year, and credit required amounts to unfunded SERP accounts, an aggregate amount equal to two times the career average base salary. Interest is to accrue on unfunded credits based on the prime rate reported in The Wall Street Journal.

Contributions and credits under the current plan shall continue until the first to occur of: (a) December 31, 2028; or (b) separation from service. Distributions of vested benefits shall be paid based on the following vesting schedules as of December 31, 2022:

<u>Date</u>	Amount Due
December 31, 2023 June 30, 2025	\$ 15,482 265,562
December 31, 2028	75,924

The deferred compensation liability under this plan was estimated at \$151,185 as of December 31, 2022 and is included in accrued expenses.

Notes to Financial Statements

December 31, 2022

12. <u>DEFINED CONTRIBUTION PLAN</u>

The Foundation sponsors a defined contribution plan covering all full-time and regular part-time employees after completing one full year of service. The Foundation contributes 10% of eligible employees' gross salary to the plan each year. Pension expense which, is reported in the statement of functional expenses with payroll taxes and employee benefits totaled \$323,761 for the year ended December 31, 2022.

13. BUCHANAN ALUMNI HOUSE

On October 19, 1999, the Foundation and the University of Maine Alumni Association (Association) entered into an agreement as co-owners of the Buchanan Alumni House, which was constructed solely from private funds. This interest is valued based on the underlying activity of Buchanan Alumni House. The owners did not create a partnership and each owns an undivided half interest in the building and land lease with a net asset value of \$2,582,166 at December 31, 2022.

The Buchanan Alumni House provides office space for the Foundation and the Association to conduct their respective charitable and not-for-profit missions and serves campus visitors providing the University with function space to welcome and host alumni, prospective students, faculty, campus guests, and visiting dignitaries.

The Foundation and the Association, as the owners of Buchanan Alumni House paid \$16,667 and \$8,250 per month, respectively, toward the costs of operating the facility for the year ended December 31, 2022.

14. STATEMENT OF CASH FLOWS DISCLOSURES

During the year ended December 31, 2022, the Foundation received non-cash contributions of investment securities totaling \$1,223,351, and a life insurance policy with a cash surrender value of \$19,218.

15. SUBSEQUENT EVENTS

Subsequent events were evaluated through September 14, 2023, which is the date the financial statements were available to be issued.
